

Syed Ahtsham

Java Full Stack Developer

Emp ID: 1234567

Email id: sarah.johnson@company.com

Mobile: +1 2125551234

Location: New York, NY

Skills

Education:

§ Bachelor's in Computer Science

Areas of Business:

• Tech

Key Skills & Capabilities:

- Programming: C#, .NET, React.js, TypeScript
- Web Development: HTML, CSS, JavaScript, Tailwind CSS
- Frameworks: ASP.NET Core, Entity Framework, Angular
- Database: SQL Server, PostgreSQL and Cloud: Azure, AWS
- Strong written, verbal communication and Agile practices
- Efficient Problem Solving and Design Thinking

Profile Summary

Introduction:

- Experienced .NET Full Stack Developer with 7+ years building enterprise web applications using C#, ASP.NET Core, React, and TypeScript.
- Proven ability to deliver production-quality code on tight deadlines, collaborating across cross-functional teams.
- Skilled in designing scalable architectures with RESTful APIs, microservices, and CI/CD pipelines on Azure.
- Passionate about clean code, automated testing, and continuous improvement.

Select Projects (Highlights)

Client Portal Redesign

- Led frontend redesign of the client-facing portal using React and TypeScript, improving user engagement by 40%.
- Built RESTful APIs with ASP.NET Core to serve dynamic dashboard data to 10K+ daily active users.
- Deployed to Azure App Service with CI/CD via GitHub Actions, achieving zero-downtime releases.

Internal Dashboard Platform

- Developed a real-time analytics dashboard using Angular, .NET, and SignalR for live data streaming.
- Integrated with SQL Server and Redis caching, reducing page load times by 60%.
- Implemented role-based access control with OAuth 2.0 and Azure AD.

E-Commerce Microservices Migration

- Migrated a monolithic .NET application to microservices using Docker and Kubernetes on Azure AKS.
- Designed event-driven architecture with Azure Service Bus, improving system resilience.
- Reduced deployment time from 2 hours to 15 minutes through automated pipelines.
