- Conducted financial analysis of potential borrowers
- Provided feedback on products and services to the IT team
- Provided prototypes to the development team to add new features to iNet banking

Education

- Bachelors in computer science from UMBC in progress (Expected completion June, 2026)
- Associate degree in computer science, AACC Maryland (GPA 3.6/4.0)
- MBA Finance
- B.Sc. major subjects: Mathematics, Statistics, and Economics

Certifications and Courses

- Full Stack Web Development, Ancora Academy – 2020
- Passed and scored 3/3 in Defense Language Proficiency Test of Urdu
- Data Structures with C++ (AACC) – 2021
- Java Control Structures (AACC) – 2021
- Fundamentals of Java OOP (AACC) – 2020

Additional Skills

- Quick learner
- Creating UML diagrams
- Ability to design database schema
- Hands-on experience in implementing statistical tools
- Ability to figure out root causes of businesses non-performance
- Financial and budgeting analysis
- CSCI Testing (Computer Software Configuration Item testing)
- Testing software requirements against SRS documentation
- Analysis of DSP (Digital Signal Processing) output
- Formulating strategies to maximize profit and minimize costs
- Ability to understand and communicate in Urdu, English, Hindi and Punjabi
